AGRICULTURAL.

THE MANURE OF CITIES.-The City of Bordeaux is in a difficulty about its refuse, Contractors complain of the trouble they find in getting rid of some 40,000 tons a year. The authorities, after having received considerable sums of money for the manure of the town, are at present obliged to pay about twenty dollars a to get rid of the mere refuse and sweepings of the streets. not including road-sweepings and sewerage. It seems scarcely credible, but it is positively asserted, that the refuse of Bordeaux, is used by the cultivators of Isle and Dordogne, at a distance of fifty or sixty miles from Bordeaux, while in the neighborhood of the last named place not a ton is employed .-The last contracter, thinking that the proprictors of the land would be glad to take advantage of the facilities offered by the Bayonne Railway and the rival roads for procuring manure, hired the ground belonging to the station of the Southern Railway, and there collected a mountain of refuse. -Nobody would have it, and it is gradually rotting away where is atands. It would natuarly be supposed that the manure was not worth having, but the centrary is proved by long experience. The very same refuse is advantageously used in the neighborhood of Perigord, although the purchasers have to pay the expense of river conveyance, which ocupies fifteen days, and some other expenses. Scientific and practical men are now making great efforts to awaken the agriculturalists of the neighborhood of Bordeaux to the fact that they are allowing this source of prosperity to lie unheeded at their doors. -Jonr. Soc. Arts.

THE AHANTHUS,-We hear so much against the Allanthus, that we are quite disposed to take its part. It will grow every where, is a rapid grower, and is very seldom troubled by insects. We know that it makes good fuel, and we connot see why its timber should not be useful for a great many purposes. We have had a couple of blocks upon our desk for some time, the one varnished and the other plain, and of the the great many who have examined them. not one has guessed the kind of wood. Its disagreable quality is an unpleasant odor when in flower, and its great nakedness in winter renders it less suitable as a windbreak than many others. Despite all the abuse it has had, were we upon a treeless prairie. should plant the Ailanthus, notwithstanding it has been condemned by several pomological societies. It is the tree that converts the brick and brownstone streets of New York into beautiful avenues of tropical foliage; it grows among the pavements as if it rather enjoyed a hard life, and it is especially adapted to rocky and sterile soil.

AN INVALUABLE RECEIPT. - "A receipe AN INVALUABLE RECEIPT.—"A receipe worth one thousand dollars." So says the Ohio Cultivator: Take one pound of salsoda and a half pound of unslacked lime. put them in a gallon of water and boil twenty minutes; let it stand till cool, then draw off and put in a stone jug or jar; soak your clothes over night, or until they are wet through, then wring them out and rub on plenty of soap, and to one boiler of clothes. well covered over with water, add one teaspoonful of the fluid; boil half an hour briskly, then wash well through one suds and rinse through water, and your clothes will look better than the old way of washing twice before boiling. This is an invaluable receipt, and we want every poor tired woman to try it. We think with a patent wash-tub to do the little rubbing. the washerwoman might take the old Bible and compose herself on the lounge, and let FOR FALL and WINTER, the washing do itself.

RECEIPT FOR MAKING BEER. Take one quart of water, to which add two tablespoons of molases, and stir well. Thon put in one tablespoon of California "Beer Seed," and let stand for twenty four hours. Then and let stand for twenty four hours. Then
pour off and sweeten to taste with good
white sugar or molasses, and bottle it,
or put it in a jug or demijohn, adding a teaor put it in a jug or demijohn, adding a teaspoon of good ginger, and well-corking the same. In twenty four hours more it will be ready for use. Renew the water on the seed every twenty-four hours, doubling the quantity every week, as the soed grows .-Never let the same liquid remain on the seed longer than twenty-four hours. This beer is very fine.

GRAHAM PUDDING .- Stir Graham flour gradually into boiling water with a little salt, and make about as thick as hasty pudding, or mush, and free from lumps. Eat with tolerably rich milk and sugar, and with the addition of canned peaches or other preserved fruit. If there be any of the pudding left over it may be cut in slices and fried in lard or dripping, and is very good. We have been having the above pudding for breakfast daily for years, and our "boys" are not willing to do without it. It is good for the teeth.

STRAWBERRY JELLY, -Express the juice from the fruit through a cloth, strain it clear, weigh and stir to it an equal proportion of the finest sugar dried and reduced to powder; when this is dissolved, place the preserving-pan over a very clear fire, and stir the jelly often until it boils, clear it carefully from scum, and boil it quickly from fifteen to twenty-five minutes. This receipt is for a moderate quantity of the preserve; a very small portion will require much less

STRAWBERIES .- Plant, if not already done, even if it be late. Keep the beds clean. If they are mulched, pull up the weeds that force their way through. Put on a mulch before the fruit ripens, if not already done. Should there be a dry time, water, if practicable. Those who have facilities for irrigation should provide for

TICKS IN SHEEP.-The Ohio Furmer reccommends boiling eight or ten pounds of leaf tobacco or stems, for each 50 sheep to be treated for ticks. Lambs may be diped all over at once, keeping the eyes and nose out. Heavy sheep can be put in a tub and the liquid poured over along the back and rubbed in the wool.

NEW RESTAURANT.

In Shive's Building, on Main Street. WM: GILMORE, the chizena of Bloomahurg and vicinity that spend a New RESTAURANT.

Pianos for the People! 420 Broome St., N. Y.

We would call the attention of the public and the We would call the sitention of the public and the trade to our elegant New Scale Planos, in the following styles:

BYULE A. 7 octave, Front large round corners, straight bottom, bead moulding on pinth...\$450 BYULE B. 7 octave, came as style A with serpoline moulding on pith, carved logs and lyre. \$400 BYULE B. 7 octave, straight bottom, wouldings aame as on style D. carved lyre and desk, fluery carved logs... 550 BYULE D. 7 octave, Front corners large round sepentine bottom, mouldings aame as on style D. carved lyre and desk, fluery carved logs... 550 BYULE D. 7 octave, Four large round corners, finished back, mouldings on rim and plinth, scrpentine bottom, carved lyre and desk, elegant corners large round corners, finished back, mouldings on rim and plinth, scrpentine bottom, carved lyre and desk, elegant corners and have the full iron frame. French action, harp pedal, beveled top, ivory keys and key fronts and exceed in averstrung bass, nearly sil the 7-1 Octavo Pianos now manufactured. They are made of the best materials, and for finish, durability, purity and sweetnes of tone, cannot be surpassed. We invite the attention of the public, of dealers and the profession, to a citical examination of the merits of our Pianos.

By avoiding the great expenses atteadant upon costly factories and expensive warerooms is the city, we are enabled to offer those Pianos at prices which defy competition, and invite sil to call and examine them before purchasing elsewhere. Parties ordering from a distance can rely upon receiving their Pianos promptly, and no confusion can arise as the styles are so distinctly designated by the letters A B C D.

The four styles described above, embody all the ossential changes in exterior finish of case, which are by many manufacturers run up to 15 and 20 patterns.

MUSIC DEPARTMENT, We would respectfully call the attention of Choir Leaders and Singing School Teachers to our estab-lishme n where all kinds of Church Music, Glee and Anthem Tooks can be obtained on the most favorable

Anthem woose can be considered.

The long experience of our Mr. Perkins in Musical Conventions, Choirs, the Youcert Room and Sundy-School, engales him to give savice and information on all points of musical interest as to the selection of proper works of instruction, formation of musical schools—progress is musical studies, and items of general interest to composers, leaders teachers and students.

students.

Sheet Mucic furnished on the usual terms with promptness and dispatch, Country orders so icited—and selections made for pupils, teachers, concerts, &c. &c. &c.

GREAT IMPROVEMENT IN

SEWING MACHINES Empire Shuttle Machine! FALESROOMS, 536 Broadway, N. Y., 250 Washington Street, Boston, 921 Che, nut Street, Philadelphia.

PATENTED PEB. 14, 1800. SHIS MACHINE is constructed on entirely new principles of mechanism, possessing many rare dvaluable intervenents, having been examined the most profound experts, and pronounced to

by the most profound experts, and pronounced to be

Simplicity and Perfection Combined.

It has a straight needle, perpendicular action, makes the LOCK or SHL TTLE STITCH, which will neither RIF nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansock muslin, with cutton, inea, or silk thread, from the coarsest to the finest number. Having neither UAM or OOG WIEEL, and the least possible friction, it runs as smooth as glass, and is

Emphatically a Noiscless Machine.

It requires FIFTY FER CENT, less power to drive it than any other machine in the market. A girl twelve years of age can work it steadily, without fatings or nigury to heath.

Its Strength and wonderful Simplicity of Construction renders it almost impossible to get out of order, and is GUARANTEED by the company to give entire-satisfaction.

We respectfully invite all those who may desire to

ire satisfaction.

We respectfully invite all those who may desire to supply themselves with a superior article, to come and cannine this UNRIVALLED MACHINE. One half hour's instruction is sufficient to enable any person to work this machine to their entire sat-

sfaction.

A STROLOGY. THE WORLD ASTONISHED AT THE ASTROLOGY. THE WORLD ASTONISHED AT THE

Wonderful Revelations Made by the Great Astrologist, MADAME H. A. PERHIGO. She reveals as creis no mortal ever knew. She restores to happiness those who from doicful events, catastrophes, crosses in love. loss of relation, and friends, loss of money. &c., have become despondent, She brings together those long separated, gives information coacrining absent friends or lovers, restores lost occuring absent friends or lovers, restores lost octolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages and tells you the very day you will marry, gives you the name, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers unveils the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity. Cossultation fee with likeness and all desired information, \$1. Parties living at a distance can consult the Madame by mail with equal safety and satisfaction to themselves as if in person. A full and explicit chart, written out, with all Inquiries answered and likeness enclosed, sent by mail on receipt of price above mentioned.—The strictest secrety will be maintained and all correspondence returned or destroyed. References of the highest order furnished those desiring them.—Write plainty the day of the month and year in which you were born, enclosing a small lock of hair Address.

MADAME H. A. PERRIGG, Peb 97 '67-1y P. O. Drawer 203, Buffalo, N. Y.

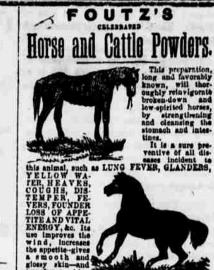

REPARATOR CAPILLI.

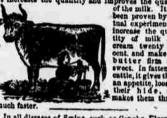

Throw away false frizzes your switches, your wig; Destructive of comfort and not worth a fig; Come aged, come youthful, come ugly and fair, And rejotee in your own luxuriant batr.

REPARATOR CAPILLI. REPARATOR CAPILLI.
For restoring hatr apon baid heads (from whatever cause it may have failes out) and forcing a growth of hair upon the face, it has no equal. It will force the beard to grow upon the smoothest face in from five or eight weeks, or helt upon baid heads in from two to three months. A few ignorant practitioners have asserted that there is nothing that will force or hasten the growth of the hair or beard. Their assertions are false, as thousands of living witnesses (from their experience) can bear witness. But many will say, how are we to distinguish the genuine from the sparious I it certainly is difficult, as nine-tenths of the different Preparation advertised for the hair and beard are entirely worthless, and you may have already thrown away large amunate in their purchase. To such we would say, try the Reparator Capilli, it will cost you nothing unless it fully comes up to our representations. If your Druggist does not keep it, send us one dollar and we will forward it, postpaditopother with a receipt for the money, which will be returned you on application, providing entire sails-faction is not given. Address, W. L. CLARK & CO. Chemiats, No 3 West Payette St., Syracuse, N. Y. Feb 37 '67—1y Feb 27 '67-1y

2.7 Jip pays strict attention to Surgery as well as inefficie.

Nov.25, 1 263, -ly. Scrofula, or King's E

is a constitutional disease, a cerruption of blood, by which this fluid becomes vith weak, and poor. Heirg in the circulata pervades the whole body, and may burn in disease on any part of it. No organ is from its attacks, nor is there one which it anot destroy. The scrofulous taint is varied caused by mercurial disease, low living, ordered or unhealthy food, impure air, and filthy habits, the depressing vices, as above all, by the venercal infection. Wheever be its origin, it is hereditary in the constitution, descending "from parents to childred unto the third and fourth generation;" indee it seems to be the rod of Him who says, will visit the iniquities of the fathers uportheir children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, it the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and or the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints have few these face pages and to the strategy of life, so that scrofulous constitutions not only suffer from scrofulous constitutions not only

the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have for less power to withstand the attacks of other diseases; contequently, vast numbers perish by disorders
which, although not scrofulous in their nature,
are still rendered fatal by this taint in the
system. Most of the consumption which decimates the human family has its origin directly
in this scrofulous contamination; and many
destructive diseases of the liver, kidneys, brain,
and, indeed, of all the organs, arise from or
are aggravated by the same cause.

One quarter of all our people are scrofulous;
their persons are invaded by this lurking infection, and their health is undermined by it.
To cleanse it from the system we must renovate
the blood by an alterative medicine, and invigorate it by healthy food and exercise.

Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fital malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only acrofula, but also those other affections which arise from it, such as Eurpryss and SRIN DISRASES, ST. ANTEONY'S FIRE, ROSE, OF ERVSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTES and SALT RREUM, SCALD HEAD, RINGWORN, RIBUMATISM, SYPHILITIC and MERCURIAL DESIGNATION, STPHILITIC and MERCURIAL DESIGNATION OF IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions. Compound Extract of Sarsaparilla. contaminated constitutions

Ayer's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiceness, Heartburn, Headache arising from disordered Stomach, Nausca, Indigestion, Pain in and Morbid Inaction of the Borels, Flatulency, Los of Appatite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, POR THE BAPID CURB OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consump-tion, and for the relief of Consumptive Patients in advanced stages of the

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape other medicine of its kind is too apparent to escape observation, and where its pirtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. be forgotten.
